SMART

Designers are always unwilling to be limited by the rules. breaking the restrictions only to make better products. The SMART series can swing both ends 360° in the horizontal direction and 30° in the vertical direction.

Two classic appearance colors of black and white are Matched. With an optical lens design, SMART can choose from 15° , 25° and 36° . Suitable application scenarios range from home to business, from accent lighting to direct space lighting.
