

## AERO SERIES

# VERY SILENT. VERY POWERFUL. VERY EFFICIENT.

The Aero Series fans have many sides to them. They are bold, dynamic and premium. They also are technologically unmatched, governed by the core principle of aerodynamics applied in aircrafts and Formula One cars. This design and the use of new-age material reduce friction and air turbulence like never before. The result? Drastically reduced fan noise and an unmatched air thrust. So, wait no further. The coolness, the silence, the future await you.

# Energy Saving Series

In Brushless Direct Current motors, permanent magnets are used for transferring electricity unlike conventional motors that use electromagnetic induction. This means negligible losses in the form of heat along with lesser wear and tear of motor parts, making it super energy-efficient and durable. This is why it is widely being used in aircrafts, automobiles, home appliances, air conditioners, and washing machines.

## orient BLDC FANS

The BLDC fans series is a masterpiece of innovation, created to save energy and your hard-earned money. Its intelligent design is a result of years of research, which ensures that you never have to compromise. Apart from savings on your electricity bill, it also helps cut down CO2 emission by reducing consumption of coal for energy generation.

Ribbed aluminium blades for longer durability

Also available in variant 600mm in 4 blades. 900mm. 1050mm and 1200mm rated BEE 2-star. 1200mm and 1400mm rated BEE 1-star.

LIFESTYLE FANS

**CLOUDCHILL™**  
TECHNOLOGY

Orient Cloud 3 is a one-of-a-kind lifestyle cooling solution powered by the unique Cloudchill technology which helps bring down the air temperature by up to 12 degree Celsius. It has an in-built cloud chamber that converts water into cloud-like microparticles which instantly cools the air while the aerodynamically designed fan blades help spread this chilled air across the room. It is easy to move and comes with a remote control for convenient usage. And all this is packed in a beautiful body that forms a perfect product to enhance the interiors of your home.

# Orient CLOUD 3

COMPARISON

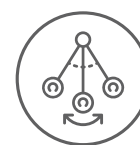

## TILT MECHANISM

Adjustable downward tilt up to 10-degrees helps direct the cooling where you want it

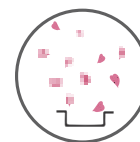

## EASY FILL INLET FOR WATER & ICE

Revolutionary Cloudchill technology drops temperature up to 12 degrees. For extra chill, add some ice, for a temperature drop up to 20 degrees

## 30-DEGREE OSCILLATION

Unique 30-degree oscillation with gliding top mechanism helps circulate cool air across the room, enhancing your comfort

## FRAGRANCE CHAMBER

Add fragrance of your choice in the easy fill inlet to lift your mood

Available in White and Black

## BREEZE MODE

Experience the pleasant sensation of fresh and pure breeze inside your home with the fan's breeze mode

## ENHANCED AIR CIRCULATION WITH UNIQUE GUARD DESIGN

Unique and elegant grill design ensures safety and helps in effective circulation of air to enhance the overall cooling experience

Pre-lubricated double ball bearing for maintenance free running

Aerodynamically contoured blades to handle maximum air delivery with minimum power consumption

Motor protected with thermal overload protection device

Class 'B' insulation

Epoxy powder coating to resist corrosion

Powerful air suction

INDUSTRIAL FANS

## WALL AC 18

**IP55  
Protected**

High torque gear box with safety clutch

Best-in-category air thrust

3-speed control

Broad blade profile for low noise

Up & down tilt mechanism

Motor protection thermal overload protection device with auto-reset

90-degree oscillation

Spiral guard design ensure international safety standard

Powerful air circulator motor for high air delivery & thrust

## STAND AC-18
