# LUMAPRO® GreatWhite

REDISCOVER BRIGHTNESS

Added\_\_\_\_ntelligence

GreatWhite's LED solutions offer you an unlimited array of possibilities, and do it while offering enormous savings and energycosts. A designer's delight, the classic beauty offered by our LEDs aspire to create living spaces beyond beautiful, allowing you to create flexible ambiance that fits in with your need and taste, and all this with the energy consumption that is only a fraction of conventional lighting techniques. GreatWhite LED Lighting stands for Illumination, efficiency & durability. It stands for a brighter decision.

#### GENERAL FEATURES

Low Power Consumption | Up to 85% energy saving\* | High/Good Color Rendering ( CRI)

High Lumen efficacy | Eco efficient | High system efficiency

Glare free, ensures uniform light distribution | Instant start/Instant Light | Flicker Free

No UV/IR Radiation | No Mercury content | High efficiency SMPS based driver

#### HIGHLY ENERGY EFFICIENT

In LED technology the 85-90% of electricity is converted into light output and only 10-15% goes waste in unnecessary heat dissipation which is much more efficient as compared to incandescent lamps, where only 10% of electricity is used in light output while 90% of electricity goes waste.

#### SIGNIFICANT SAVINGS

Since LED does not contain a delicate LED Light bulbs are a revolution in lighting, they turn on instantly, provide very bright and clear light, last for decades, can also be dimmable (if required) and most importantly they can slash your lighting bills by over 85%.

#### INTELLIGENCE

LED lighting products come in a variety of shapes, colors and brightness. We can control the lighting time, lighting sequence, colors & many other aspects of LED lighting according to our wants and desires. Ideal for mood accent and facade lighting.

# HELPS IN ACQUIRING GREEN BUILDING CERTIFICATION (LEED)

With the reduction in power consumption and load on air conditioning plant, LED lights help in meeting the standards for LED certification for Green Buildings with a nominal increase in the capital cost.

#### LOWER HEAT GENERATION

LED lights have a very low heat conversion (as compared with halogen and incandescent bulbs) rate which helps in reducing the indirect load on the air conditioner, leading to indirect energy saving.

#### REDUCE IN CO2 EMISSION

Due the reduction in the energy consumption by LED, there is also a reduction in CO2 emission which makes this technology environmental friendly which is very important for a global perspective.

#### LONG LIFE SPAN

LED light have a long life span of 50,000 hours, which is significantly higher as compared to the 1,200 hours life span of incandescent light. This helps in reducing downtime and replacement costs.

#### ZERO MAINTENANCE

Since LED does not contain a delicate component like filament, they can withstand greater intensity of vibration and shocks than standard lights, further reducing the changes for maintenance.

#### ENVIRONMENTAL FRIENDLY

LED does not contain mercury or any harmful and toxic gases. Hence the disposal of LED light will be extremely safe and economical. Thereby helping in protecting the environment.

#### FLICKER FREE

Compact Fluorescent light bulbs (CFL) make you wait a few minutes for full brightness and useable light.

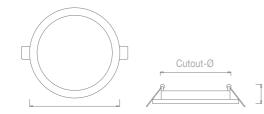

Evolved as per the evolving needs of our customers! To fulfill our purpose of surpassing the ordinary, we began our great transformation of bright. Remodeling our old LEDs to a lighting solution that is smart, advanced and professional in ways more than just one, LUMAPRO. To further our transformation and match the pro of LumaPro, we revamped our packaging to fashion a wavy look beautifully complemented by its earthy tone to make a bold statement.

# 01 LED Panels & Grid

Slim constructed edge lit round panels are constructed with aluminium die cast white powder coated frame and external SMPS based isolated constant current driver.

# 05 LED Batten's and Tubes

#### **EMERGENCY/ INVERTER BATTEN**

Emergency batten is also called as "Inverter" batten because when there is a power failure, this batten continuous to work by drawing power from its in-built battery.

CDL	Product Code WDL	DL	Rated Power	Colour Temp (CCT)* CDL/WDL/DL	Lumen	Dimension (in mm)	Case Lot
LED-101-EMG-BTN	LED-102-EMG-BTN	LED-103-EMG-BTN	10W	6500K/3000K/4000K	1000	L-585 x W-25xH37	20
LED-201-EMG-BTN	LED-202-EMG-BTN	LED-203-EMG-BTN	20W	6500K/3000K/4000K	2000	L-535 x W-25xH37	20

FEATURES > Rated Power: 10W in Main mode & 4W in Battery Mode | In-Built Lithium-Ion Battery for More life, safe, better self-life & compact | Low Battery voltage cut-off & Constant batteries status monitoring

#### **RADAR BATTEN**

The LED Radar sensor consists of PC extrusion housing with white color decorative ABS end caps and the batten equipped with microwave technology for providing energy-efficient solution. The batten with CC SMPS based electronic driver and occupancy internal sensor, varies its lumen level whenever there is a moving object in its field. As the object moves out of the field with a 17sec delay the output level reduces to 30 Percent of the full load there by 70% saving electricity. And also other model output level reduces to 0 of the full load there by using 100% saving electricity.

Product Code CDL	Product Detail & Function	Rated Power	Colour Temp (CCT)* CDL/WDL/DL	Lumen	Dimension (in mm)	Case Lot
LED-201-RDRD-BTN	Dimming mode (100% to 30%)	20W	6500K	2000	L-1138 x W-27.5 x H-37	20
LED-201-RDR-BTN	Off Mode (100% to 0%)	20W	6500K	2000	L-1138 x W-27.5 x H-37	20

FEATURES > Full bright 20W, semi bright 6w for Dimming mode | Full bright 20W, No light output for OFF mode | Sensor range 140 degree Installation height: 5mtrs to 6mtrs max | Induction delay 17sec | Low power consumption

APPLICATIONS > Staircase | Warehouse | Parking slot | Storage Room | Corridors | Elevator

#### PC-PC BATTEN (IP 65)

The PC-PC body luminaire consists of corrosion resistant unbreakable polycarbonate body with high quality polycarbonate diffuser in opal finish for glare free uniform light distribution, fixed to the housing with SS snap fit clamps. The wall mounted /surface and suspended luminaire is integral energy efficient SMPS based driver is suitable for wet location.

CDL	Product Code WDL	DL	Rated Power	Lumen	Colour Temp (CCT)* CDL/WDL/DL	Outer Dimension in mm	Case Lot
LED-201PC-BATTN	LED-202PC-BATTN	LED-203PC-BATTN	20W	2000 - 2400	6500K/3000K/4000K	L-1175 x W-85 x H-75	4

**FEATURES** > System efficacy > 120lm/W - Energy saving 55% compared with conventional | Sleek design comes with superior quality of polycarbonate Co-extrusion with Ingress protection-IP65, effectively prevent dusts & moisture from luminaire | Impact resitant-IK08 | Co-extruded polycarbonate housing | Its suitable to mount for suspended, surface and with provided accessories | Suitable for area prone to corrosion and high impact.

APPLICATIONS > Industry general area | Food and beverage | Workshop and assembly line | Parking areas | Sideways and other semi outdoor applications

#### INDUSTRIAL BATTEN

The CRCA with white powder coated body luminaire with high translucent curved polycarbonate diffuser in opal finish for glare free uniform light distribution. This luminaire with integral energy efficient SMPS based driver with ABS end caps.

CDL	Product Code WDL	DL	Rated Power	Colour Temp (CCT)* CDL/WDL/DL	Lumen	Dimension (in mm)	Case Lot
LED-401-T8PRB	LED-402-T8PRB	LED-403-T8PRB	40W	6500K/3000K/4000K	4400	L-1200 x W-30 x H-38	10

FEATURES > Suitable for industrial indoor application | Its suitable to mount for surface and hanging application | High Voltage 440Vac sustainable

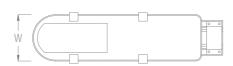

APPLICATIONS > Indoor Parking Garages | Retail | Warehouses | Factory | Assembly Lines | Metro | Supermarket

# 06 Street and Flood Lights

#### **HIGH WATTAGE STREET LIGHT**

New generation High Wattage Street Light range energy saving & environmental friendly long life versatile LED Street light in pressure die cast aluminium housing with grey painted in matt finish, fitted with toughened glass in the front for the desired ingress protection. The light is having in-built SMPS based CC IP rating electronic driver with high efficiency and low power loss.

IP 20

FEATURES > Suitable to mounting as per customized track system | Available in various colors and precious object lighting | Applicable for focus lighting in various places such as jewellery shops, showrooms, granite shops and apparels.

# **ZOOM LIGHT** (WALL WASHER)

The new aesthetically designed COB Zoom lights series with die-cast aluminium housing in white powder coating finish, with anti glare reflector and external energy efficient electronic SMPS based isolated CC driver. These zoom lights are applicable as wall washers with rotating 360° angle to zoom the beam.

# 08 LED Profile Lights

## **LINEAR SOFT RECESSED**

Such a special architectural commercial design Recessed trim linear lights are made with high quality aluminium extrusion with white powder matte finish coated. High translucent micro-linear frosted PMMA diffuser creating a high visual comfor t and very uniform light distribution. In-built efficiency electronic SMPS based driver.

FEATURES > Suitable for suspension with 1.5 meter long clutch wire for hanging | Applicable to surface also. APPLICATION > Offices | Educational institutions | Hospitals & Hospitality | Cabins | Library | Modern offices

## **CIRCULAR SUSPENDED**

Such a special architectural design Circular lights are made with high quality CRCA back plate with Aluminium extrusion with white powder matte finish coated. The LED clusters are assembled in the body and high translucent micro-linear frosted polystyrene diffuser is used for uniform glare-free light distribution.

#### APPLICATION >

Offices | Educational institutions | Hospitals & Hospitality | Cabins | Library

FEATURES > Suitable for MD cabins, modern offices, restaurants and reception areas | Accessories provided for suspended application. Mounting: Suspended (1.5 meter) by 4 wires of hanging accessories or single Aluminium rod with canopy (customized)

## **LED STRIP LIGHTS**

LED strip lights are newly innovated and sophistically designed rope design strip type LED's are easy to use in many of indoor and outdoor applications. And these kind of lights are available in Cool, Day and Warm light as well as Red, Green and Blue colors. All these color strip LEDs are made with high CRI and make it to change as different kind of moods of lights options through remote like: Single, blinking and running and also with RGB color changing etc.

LED-72STP-RGB65			72W	6000	RGB		10

FEATURES > High brightness 3528/2835 & 5050 SMD LED chip | Flexible ribbon with self adhesive | Available in both indoor & outdoor version I Individual package of 5Mtr LED strip operate with appropriate individual driver I Driver to be selected for continuous length

## **STRIP LIGHT** DRIVER

Newly innovated LED strip light drivers are consist with highly thermal stability SMPS based Constant DC Voltage power supply with high power factor, high efficiency low power loss and available in various power ratings.

Product Code	Rated Power	Dimension in mm	Case Lot	
DRV-STP-12V2A	24W	L-85 x W-60 x H-33	50	
DRV-STP-12V3A	36W	L-85 x W-60 x H-33	50

DRV-STP-12V10A	120W	L-159 x W-98 x H-41	10	

IP20

FEATURES > Design to meet safety standards | High frequency switching technology | Design to meet adverse Indian power conditions | Suitable for Strip lights | Over load, short circuit and over Temperature Protection | Also availbale in IP65 drivers for out door applications

# 10 Landscape Lighting

#### **BOLLARD LIGHT**

The Decorative Bollard comprises of pressure die cast Aluminium housing with high corrosion resistant, epoxy powder coating and reflectors for providing uniform surround light. Durable silicon gasket with clear polycarbonate diffuser.

CDL	Product Code WDL	DL	Rated Power	Lumen	Colour Temp (CCT)* CDL/WDL/DL	Outer Dimension in mm	Case Lot
LED-081-BLRD	LED-082-BLRD	LED-083-BLRD	8W	800	6000K/3000K/4000K	L-560 x Ø- 96	5

LED-221-BLRD	LED-222-BLRD	LED-223-BLRD	22W	2200	6000K/3000K/4000K	L-670 x Ø-103	5

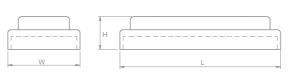

The Decorative Bulk head comprises of PC housing with opal shape PC diffuser. The wall mounted/surface application product is having integral energy efficient SMPS based driver.

CDL	Product Code WDL	DL	Rated Power	Lumen	Colour Temp (CCT)* CDL/WDL/DL	Outer Dimension in mm	Case Lot
LED-051BLKD-0VL	LED-052BLKD-0VL	LED-053BLKD-0VL	5W	500	6500K/3000K/4000K	L-200 x W-110 x H-50	10
LED-101BLKD-0VL	LED-102BLKD-0VL	LED-103BLKD-0VL	10W	1000	6500K/3000K/4000K	L-232 x W-110 x H-50	10

FEATURES > Suitable for indoor and outdoor application | Its suitable to mount on wall, ceiling and surface application with provided accessories

#### **UP/DOWN** LIGHT

Surface mounted decorative LED UP/DOWN light with Die-cast aluminium housing with high corrosion resistant powder coating, single cable entry. Durable silicon gasket with clear glass. This lights is having in-built SMPS based constantcurrent driver.

CDL	Product Code WDL	DL	Rated Power	Lumen	Colour Temp (CCT)* CDL/WDL/DL	Outer Dimension in mm	Case Lot
LED-051-UPDNL LED-071-UPDNL LED-101-UPDNL	LED-052-UPDNL LED-072-UPDNL LED-102-UPDNL	LED-053-UPDNL LED-073-UPDNL LED-103-UPDNL	5W 7W 10W	450 630 1000	6000K/3000K/4000K 6000K/3000K/4000K 6000K/3000K/4000K	L-150 x W-70 x H-60 L-150 x W-70 x H-60 L-150 x W-70 x H-60	5 5 5
LED-141-UPDNL	LED-142-UPDNL	LED-143-UPDNL	14W	1400	6000K/3000K/4000K	L-150 x W-70 x H-60	5

FEATURES > Suitable for indoor & outdoor application | Surface mount application for lights, landscape areas and useful for illuminating external passage/corridor & indirect, porch & patio lighting applications

#### **DIMMING SOLUTIONS**

GreatWhite offers various kind of Smart Lighting Solutions for entire range of consumer, commercial, retail and other kind of lighting products. Dimmable options are carried out in the market for.

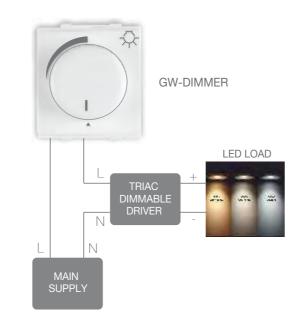

- TRIAC
- TRIAC with RF and IR control Dimming
- ANALOG ( 0/1V-10 VDC)
- DALI Dimming

#### SPECIFICATIONS >

Rated Voltage: 220-240VAC, 50Hz, PF: >0.9 | Operating Voltage Range:100-320VAC | Operating Temp: - 10°C to +70°C | High surge protection: >4kv | THD (A) %: <10% | Built in PFC Function | Open & short circuit protection | Over temperature & over voltage protection | Withstand Voltage: I/P-O/P: Min 2kv | Isolation resistance: I/P-O/P>500M $\Omega$ /1000VDC | Voltage & Current tolerance: ±5% | Component temperature Tc: 90°C | Confirming to BIS standards IS 15885 (Part 2/Sec 13)

#### FEATURES >

440VAC input withstand for 2hrs. This takes care of voltage fluctuation in the supply line voltage. | Efficiency >80% | Available in both CC and CV mode drivers | Dimming with GreatWhite Dimming regulators compatibility with GreatWhite dimming drivers. | Compatible with leading edge Dimmer make LITEPUTER ( EDXFO4R )

#### **TRIAC DIMMING DRIVER**

Constant current Triac dimming drivers are compatible with Leading Edge Dimmers. The leading- edge phase cut dimmers are typically lower cost and so are more widely used whereas trailing-edge dimmers exhibit lower EMI and are preferred in noise sensitive environments.

GreatWhite Triac regulator type 300W & 600/1000W Myrah, Trivo, and Fiana kind of dimmers are suitable to applicable with GreatWhite Triac dimming drivers in all range of indoor, retail and commercial lighting applications

#### CONSTANT CURRENT DRIVER

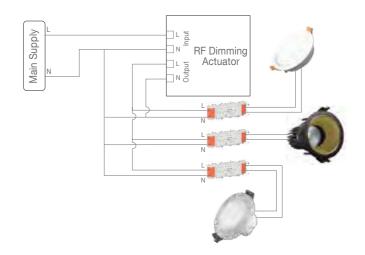

Power: 6-13W Input Voltage: 230VAC Output Voltage: 30-45VDC Output Current: 190mA D: 140(L)X45(W)X27(H)mm Power: 3-9W Input Voltage: 230VAC Output Voltage: 9-30VDC Output Current: 300mA Efficiency: >70% Dim Mode: Leading C: 88(L)X39(M)X23(H)mm Power: 10-15W Input Voltage: 230VAC Output Voltage: 27-45VDC Output Current: 300mA Efficiency: >70% Dim Mode: Leading C: 115(L)X45(W)X28(H)mm Power: 15-25W Input Voltage: 230VAC Output Voltage: 45-70VDC Output Current: 300mA Efficiency: >70% Dim Mode: Leading C: 115(L)X45(W)X28(H)mm

#### TRIAC RF DIMMING SYSTEM

Great White presents Traic Dimming solutions with RF remote control. This lighting dimming system comprises of • 250W capacity of Dimmer actuator (controller) & RF • The RF Remote control is of 4 channels, each channel can control 4 groups of lights (so total 16 channels can be controlled in total) • Dimmable driver to support LED dimming

#### FEATURES >

250W RF dimmer actuator which can be suitable to mount in the ceiling. | Adopt 2.4GHz wireless technology, remote distance upto 25 MTR (open area) | One RF switch (actuator) can accept upto 10 remote control | To switch / dim any single color LED lamps (light should be suitable for external driver load) | Minimum load 10 watt and Max 250 watt of load can be dimmed | Residences, Hotels, Passages and Commercial application | Wireless and fast installation | Load should be selected any one of Panels, Downlights, COB down lights, Commercial cum retail lights which is having external driver option.

#### CONSTANT CURRENT DRIVER

Power: 6-13W Input Voltage: 230VAC Output Voltage: 30-45VDC Output Current: 190mA D: 140(L)X45(W)X27(H)mm Power: 3-9W Input Voltage: 230VAC Output Voltage: 9-30VDC Output Current: 300mA Efficiency: >70% Dim Mode: Leading C: 88(L)X39(W)X23(H)mm Power: 10-15W Input Voltage: 230VAC Output Voltage: 27-45VDC Output Current: 300mA Efficiency: >70% Dim Mode: Leading C: 115(L)X45(W)X28(H)mm Power: 15-25W Input Voltage: 230VAC Output Voltage: 45-70VDC Output Current: 300mA Efficiency: >70% Dim Mode: Leading C: 115(L)X45(W)X28(H)mm

4 Zone x 4 Channel RF Remote

Data subject to change without prior notice

#### **ANALOG DIMMING DRIVERS**

Analog dimming is usually referred to as 1-10V dimming. in case a DC voltage is sent to the driver, which dims the LEDs in response to the voltage. With digital dimming, thedriver receives a digital signal which tells it how to respond. The advantage of digital dimming is that fixtures are addressable. Can also have many more different levels oflight output when using digital dimming. (where it operates instead at 1-10V, where 1 V is minimum and 0 V is off.) Analog/Digital dimming drivers are suitable for all range of indoor, commercial, and retail lighting products and except Bulbs, Tubes and battens.

#### SPECIFICATIONS >

Rated voltage: 220-240VAC, 50Hz, PF: >0.9 | Operating Voltage Range:100-320VAC | Operating Temp: - 10°C to +70°C | High surge protection: >4kv | THD (A) %: <10% | Built in PFC Function | Open & short circuit protection Over temperature & over voltage protection | Withstand Voltage: I/P-O/P: Min 2kv | Isolation resistance: I/P-O/P>500M $\Omega$  /1000VDC | Voltage & Current tolerance: ±5% | Component temperature Tc:90°C | Confirming to BIS standards IS 15885 (Part 2/Sec 13)

#### FEATURES >

440VAC input withstand for 2hrs. This takes care of voltage fluctuation in the supply line voltage.

| Efficiency >80% | Available in both CC and CV mode drivers | Dimming with GreatWhite Dimming regulators compatibility with triac dimming drivers.

| Compatible with leading edge Dimmer make LITEPUTER ( EDXFO4R)

#### **CONSTANT CURRENT DRIVER**

Power: 6-13W Input Voltage: 230VAC Output Voltage: 30-45VDC Output Current: 190mA Efficiency: >70% Dim Mode: Leading D: 140(L)X45(W)X27(H)mm

Power: 15-25W

#### **DALI DIMMING DRIVERS**

DALI (Digital Addressable Lighting Interface) dimming driver decoders comprise of both constant voltage (CV) and Constant Current (CC) as per the customer requirements. DALI is for network based systems that control lighting in building automation. DALI is useful for energy management and it enables you to take more control of the brightness/glare, color rendering as well as color control and presence sensing.

DALI can be most useful for Conference rooms, class rooms, training rooms and similar spaces that require different scenes for multiple types of use: larger installations with multiple buildings, where feedback on the lighting component status can facilitate more efficient lighting maintenance.

#### CONSTANT CURRENT DRIVER

Power: 6-13W Input Voltage: 230VAC Output Voltage: 30-45VDC Output Current: 190mA D: 140(L)X45(W)X27(H)mm Power: 3-9W Input Voltage: 230VAC Output Voltage: 9-30VDC Output Current: 300mA Efficiency: >70% Dim Mode: Leading C: 88(IJX39(WIX23(H)mm Power: 10-15W Input Voltage: 230VAC Output Voltage: 27-45VDC Output Current: 300mA Efficiency: >70% Dim Mode: Leading C: 115(L)X45(W)X28(H)mm Power: 18-30W Input Voltage: 230VAC Output Voltage: 45-55VDC Output Current: 400mA D: 140(L)X45(W)X27(H)mm
